

PUMPKIN CARVING DIRECTIONS

1. Cut pumpkin open and remove seeds.
2. Tape this template to the pumpkin.
3. Using a push pin, nail, or other sharp object, poke several holes around the black letters on the template.
4. Remove the template and cut the pumpkin along the dotted line you created.
Make sure to only remove the areas shown in black on the template.
5. For letters that have a white area inside a black area (such as "O"), use a toothpick to put the center of the letter back into the letter.
6. Email us a picture of your completed pumpkin! admin@milwaukeeconsumer.com
